IWTO Welcomes New National Committee and Associated Members

Brussels, 26.03.2010

IWTO welcomes a new National Committee and three new Associate Members within its membership.

„Breyner“, „Huntsman“ and „Niktex“ as new Associate Members as well as the „Mongolian Textile Institute“ as new National Committee for Mongolia, will all officially joining IWTO from April 1, 2010. With these entries, IWTO is further strengthening its international membership base and relevance as the world wide body representing the international wool industry. IWTO is looking forward to a long and fruitful cooperation.

Please find further details below:

Mongolia as IWTO National Committee:

Representing the country of Mongolia with its strong Wool and Cashmere Industry, the „Mongolian Textile Institute (MTI)“ has taken up as National Committee of Mongolia within IWTO.

The membership covers the Mongolian growers of wool, cashmere, yak and camel hair, as well as manufacturing parts of the industry in relation to the mentioned raw materials.

Associate Members:

1. HUNTSMAN (Switzerland/Singapore)

HUNTSMAN

Enriching lives through innovation™

Huntsman Textile Effects creates, markets and manufactures a broad range of chemical and dye products that enhance the performance properties and colours of finished textiles and materials.

Our Textile Effects business has a balanced global reach serving over 10,000

customers located in 80 countries and is the leading global supplier of comprehensive solutions for the textile industry. We provide innovative value adding effects and processing solutions to our customers, such as brilliant colours with high fastness, easy care, durable protection against oil, water, fire or sun, as well as a complete range of pre-treatment and dyeing auxiliaries. All Huntsman Textile Effects resources are focused on sustainable innovation. By not only developing innovative products that are of reduced environmental impact, but also by finding smart processes that support our customers and the environment through substantially reducing and optimizing the use of natural resources.

2. BREYNER (France)

Breyner is a bio-active treatments specialist.

For ten years now, Breyner has been conceiving, developing and marketing bio-active treatments for textiles.

Expert in its field, Breyner offers high value added preventive treatments to its industrial partners and curative solutions to the end customer.

3. Niketex (Iran)

Niketex is a company based in Teheran, Iran. The company is active in wool trading and consultancy services. The company is well known to IWTO as a strong supporter of the IWTO Country Summit held in Teheran in 2005.

IWTO is the international body representing the interests of the world's wool textile trade and industry. Our multi-national membership includes woolgrowers, traders, primary processors, spinners, weavers, and garment manufacturers, together with retailers and other companies involved in wool related businesses.
